GRS - Oil Spill Sensitive Site Report for Sector : Saint Petersburg — GRS Map # NWPFL-20

Protection Strategy: Deflection boom from First Point to Hammock Point with shallow water skimming (13700ft). Booming at First Point; dredge permit has been issued for Fillman's Bayou (A138 Triple diamond location) and it has been suggested that no booming occur here. Closest developed lands is the private subdivision of Sea Pines. Portions of this area have historically been used for mining. Use of any portion of this area would have to be negotiated with private property owners or SWFWMD. Private access via Sea Pines subdivision (near Cedar Island, off Ghost Creek). Private access via Littell Rd, in Aripeka. Land south and north of Fillman's Bayou is owned by SWFWMD and includes Belcher Mines Park.
